# Andreea Capalnas                    *JUNIOR FULL-STACK DEVELOPER*

## ABOUT

Within the past three years working as Account Manager in a number of tech companies, I have developed a strong interest in being directly involved in the technical side of the product. I decided to take the next step and completed an intensive bootcamp to become a Full-Stack Developer. Having enjoyed it immensely, I am now looking to work as part of a great team to continue my journey, with a keen interest in learning new technologies, programming languages and frameworks.

## RELEVANT EXPERIENCE

*Le Wagon* – **Part-time Teaching Assistant** (OCT 2019 - Present, London)

- Teaching Assistant at London's number 1 coding Bootcamp

*Le Wagon* **Full-stack Ruby on Rails Bootcamp** (JUL 2019 - SEP 2019, London) - 9 week intensive coding bootcamp learning and coding with **Ruby on Rails, HTML5, CSS/SCSS, Bootstrap, JavaScript ES6, jQuery, SQL, PostgreSQL, MVC, OOP, git, GitHub and Heroku**. During the course I completed the following projects:

- **Plantis** - A web application designed to help people look after their house plants by reminding them when each one requires watering. There is a motivational reward system in place along with a social feature where you can see and follow other people and their plants. Built with **Ruby on Rails, HTML, JavaScript ES6, CSS, PostgreSQL, Bootstrap, Heroku**
- **Plantza** - In a team of four, within a week we launched an AirBnB like web app for renting/letting house plants, using **Ruby on Rails, HTML, JavaScript ES6, CSS, MVC, PostgreSQL, Heroku** and **Figma**
